

BigHand Evaluate

Gain a powerful insight into your pricing and profitability, track budgets in real time, and profit more with BigHand Evaluate.

Overview

Too many organisations still approach pricing without concrete, actionable data. Increasing client, regulatory and cost pressures mean that handling complex matters seamlessly is more important than ever to maintain client expectations and profitability.

You need to be able to analyse your data quickly, assess how well your organisation is performing, and give fee earners access to better information.

BigHand Evaluate offers a more transparent look at business activity across each matter lifecycle, helping you better understand your bottom line and plan your pricing in advance, with better business intelligence.

Intuitive modern interfaces

BigHand Evaluate offers clean, simple and easy to use interfaces. Legal teams are provided with intelligent and intuitive dashboards that help to map, plan, monitor and track matters.

No training needed

Users can start pricing efficiently right away, without the need for extensive training or systems management.

Dynamic self-service and explorable data access

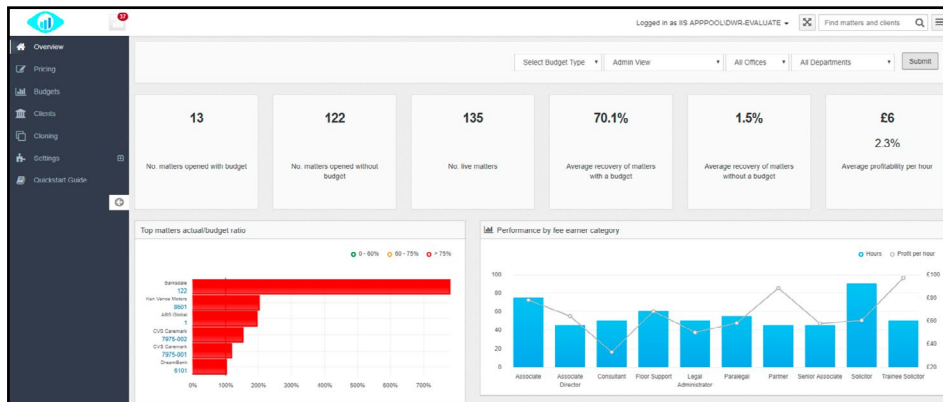

Accessible anytime, anywhere - the ability to create budgets, digest and view content supports both work-life balance and remote working.

Comprehensive tracking and reporting

Monitoring is an integral part of the BigHand Evaluate solution. You'll receive heads-up notifications about scope management and progress, helping improve client transparency.

Agnostic integration

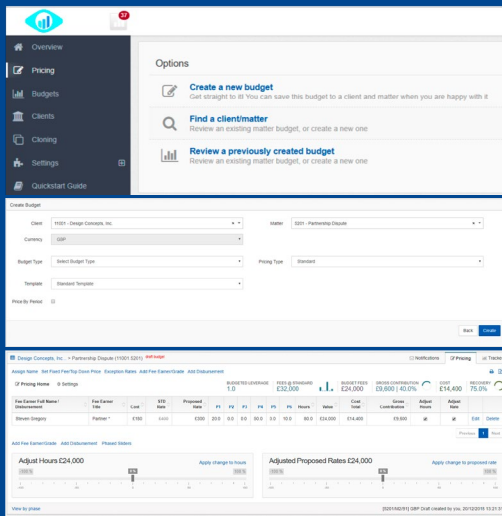

BigHand Evaluate works with multiple PMS and other business systems, underpinned by a dedicated MS SQL data warehouse.
